

## Tasc - Phoenix, AZ

Tasc's Marketing Director speaks highly of our Drug-Free website.

(The following text is from an e-mail submitted to the Drugfree Workplace website)

I am the Marketing Director of Tasc, a drug testing lab and out patient facility for substance abuse here in Phoenix. I have enjoyed and am thankful for the wealth of information you have provided at the site. I have printed materials from you and have worked with them for a drug free workplace for our corporate clients and because of the value of this information, have been able to keep our clients informed and current.

Thank you so much for everyone's hard work and for allowing all of us to read and visit your site " to benefit from all this wonderful, educational information.

My philosophy: the better educated we are, the better able we are to make better choices.

Thank you all!

With much appreciation,

Lalee Stevens CSAC

Marketing Director
