We provided this company assistance
with developing a company employee handbook.

"Preparing our company employee handbook certainly seemed like a daunting task and one that I wasn't overly enthusiastic about getting started. [The Human Capital Program] has been a great help. I came away from our first meeting with a lot of good information and written materials which prompted me to begin preparing our handbook. [They] offered to take the time to read over our handbook once I had finished and gave suggestions of changes that would make our handbook fair to all parties and compliant with the law. I can't say how much I appreciate that kind of feedback."
