

Integritel, Inc.

This company was pleased to find a Drug-Free Workplace program that was not only developed for small business but also affordable.

Integritel, Inc. would like to thank the Small Business Development Center for supplying our company with a wonderful resource of information. We are particularly thankful for the awesome efforts that Peg Callahan and Grace Mortell have made in order to help our company. Together they have helped our company acquire a Drug-Free Workplace program for minimal cost. Until now, we thought instituting a Drug-Free Workplace program would be too expensive for our small company to afford. Ms. Callahan and Ms. Mortell have also helped us to analyze and perfect our company policy and procedures book. They put our minds at ease by answering all of our questions and tending to all of our concerns. These two women have gone above and beyond in order to help our small business, and we are truly grateful. The Small Business Development Center is a gift for small businesses like ours; we will recommend your services to others. Thank you truly for all of the help.

Thank you,

Darlene Harkins
